## MULTI-PURPOSE DECONTAMINATION MACHINE

Video: Multihog & CityCleaner, which can be used with OR without chemicals to safely clean signposts, external steps, handrails, streets, sidewalks & various touchpoints.

## A DECONTAMINATION MACHINE?

Yes, a Multihog (which has an enclosed cabin, to keep operators safe from disinfectant spray) can be used with several attachments to disinfect public places.

## WHAT CAN IT DO?

The Multihog can disinfect:

- Streets, sidewalks & cycle paths
- Greenways & boardwalks
- Car park surfaces
- Car park entry barrier & paystations
- Trash cans and cigarette trash cans
- Smoking area shelters
- Bus shelters and seating

- Signposts and pedestrian traffic light touchpoints
- External steps and handrails
- Emergency & delivery vehicle touchpoints
- Supermarket and wholesaler trolleys
- Large entrance doors & loading bays
- Emergency department entryways
- Aircraft steps, airside vehicles and luggage trolleys

The CV multi-purpose sweeper (left), features a hand lance for pressure washing hard to reach areas, while the watering arm attachment (right) allows sanitation of areas at height.
